It must not be supposed that the masters and scholars of the remaining classes are undeserving of praise; with rare exceptions the work of classes, which have been only fairly successful, gives evidence of careful instruction, and the inability of boys to avail themselves of it appears to be due to the forced promoions, which are the natural consequence of the introduction into the College of 400 now boys, in the course of the year.

Mr Jones, the Assistant Master who was in charge of the Preparatory School with its Pupil Teachers and Monitors, wrote a very careful Report, in which he shows the disadvantages, under which these Juniors suffer, by the necessary omotion to acting appointments when their Seniors are absent on leave. As a novel feature this year, I may note that at Mr Jones' auggestion the six Pupil Teachers and Monitors gave instruction in various subjects to a class, in the presence of the Inspector of Schools. This year one of the monitors obtained the Stewart Scholarship, the highest distinction in the College next to the Morrison Scholarship. 8.—Pubil Teachers System.—Pupil

THE MURDER OF MR GOWER ROBINSON.

The following tolegram, which gives further details of this sad event, appears in the Hyogo News :--

Yokohama, 15th Feb., 12.5 p.m. On Saturday afternoon Mr Gower Robinson, while driving in a dogcart on the bund, was shot by Liout. Mr Pors immediately jumped out of the trap and caught hold of the assassin, but not before he had fired other ports of China in endeavouring to three shots. KIUKIANG-THE ANTI-FOREIGN PUBLICATIONS.

(N.-C. Daily News' correspondent.) 16th February.

This place will keep in line with the

understanding of the situation in this country. A petition to the Marquis of Salisbury and President Harrison is being circulated and residents are enthusiastically signing it. The community is a unit ou the subject and everybody agrees that the Home Governments ought to do something more than has been done. I gather from your reports of the Hankow public meeting that they are equally determined and are manimous in their requests to the Governaffair may be taken as a sign of what the ment. And I presume this opinion generally obtains all over China. The thousands of fereign residents in China all know the facts of the case and demand that something should be done, and yet our officials, who are appointed by the people for the people' are either blind to the conditions and needs or else are indifferent. What has China suffered for her outrages? Is she sorry? Is there any guarantee that if foreign gamboats would be withdrawn there would be no recurrence of the horrors of last spring? That the intentions of the people and men like the infamous Chon Han of Hunan have not changed, the continued circulation of their vile literature and the placards of Chungking, Ichang and Chinkiang are a sufficient wit-

ness. The Hunan rioters can afford to rest on their lourels for a few months and then they will sally forth again with increased strength and foreign ministers and consuls will tremble before them. Where revenge, but consider the murderers like Chou Han and others should no more go free than those who in every land pay the penalty of taking wilfully and with malice human life. And in order that those dreadful scenes may not be re-enacted and the world startled with fresh brutalities on unoffending men and gentle women, we protest, and in our protest the thousands of foreigners of all nationalities in China join, that our Home Governments must make it plain to the Chinese that any breeking out of the fever manifested in the past will bring severe and swift punishment. The following is the text of the petition to the Marquis of Salisbury: that to the President of the

United States is identical with it:-'My Lord,-We, the undersigned residents of the Consular District of Kiukiang beg to bring to your Lordship's notice the fact that virulent anti-foreign and anti-Christien pumphists and placards are being riroulated in China.

'They are of the most exciting character and are intended to stir up the minds of the ignorant and superstitious multitudes and all who are avilly disposed to commit deeds of outrage on the persons and property of foreigners. They plainly call upon the people to rise up and murder foreigners and destroy their property.

This infamous literature is written and scattered by men of wealth and of the highest rank in China, and seems to be a part of the settled policy of the ruling classes in China to rid themselves of

That they have partly succeeded in their mission, the murder of two Englishmen. outrages upon foreign ladies, and widespread destruction of foreign property abundantly prove. There is at present a ull in the storm, and the originators of there brutalities have won decided victories. A number of men, ment of whom are entirely innocent of any complicity in the recent riots, have been beheaded, whilst the real offenders, especially Uhou Han of the province of Hunan, have not only escaped free but are honoured by their Government. There is little doubt in the minds of those who live in China and know passed through these trying times, but that and lives and property be in serious danger and this state of affairs will continuo indefinitely until such pressure is brought to bear upon China that she will fear to encourage such deeds on the nart of her

In view of all these facts we beg to bring the subject to your Lordship's notice and pray that some steps may be taken to prevent a recurrence of recent outrages.
